

# **HUMANE SOCIETY INTERNATIONAL**

## **2010 Federal Election Policy Proposals - Ecologically Sustainable and Humane Food Production**

### **Food Labelling**

- Commit to a policy to develop a set of nationally standardised, legally enforceable definitions and labeling scheme for the production method of animal-derived products.

### **National Food Production**

- Commit to the establishment of a “Ministry of Food” which will develop, oversee and regulate national food production policy – to create an approach to food production in an ecologically sustainable environment.
